

## Features and Benefits Recap

You have just experienced multi-room audio video through the eyes of the Johnson family. Let's recap some of the key features and benefits of a multi-room audio video solution:

 <b>Key Features</b>	 <b>Benefits</b>
<p>✓ <b>Distributed Content</b> Listen to your music throughout the house or just in one room. Watch TV, movies or view your photos on any TV in the house.</p>	<ul style="list-style-type: none"><li>• Eliminates clutter in each room</li><li>• Allows you to enjoy content anywhere in your home</li><li>• Reduces costs by requiring fewer components and subscriptions</li></ul>
<p>✓ <b>Independent Zones</b> Play the classical station in the bedroom, the kids' MP3 in the playroom and a movie in the family room.</p>	<ul style="list-style-type: none"><li>• Creates multiple listening/viewing spaces</li><li>• Offers the option to play the same music throughout your home (e.g., "party mode")</li><li>• Sets the mood by tailoring music and volume to each zone</li></ul>
<p>✓ <b>Multi-Room Control</b> Adjust the volume, change the channel or switch sources using in-room keypads or remote controls.</p>	<ul style="list-style-type: none"><li>• Gives you full control of features from any room</li><li>• Powers "all on" or "all off" with one button</li><li>• Provides easy access to music, movies, TV and digital media from any room</li><li>• Displays song title, artist and cover art in every room</li></ul>
<p>✓ <b>Custom Integration</b> Multi-room systems deliver your entertainment experience from behind the scenes.</p>	<ul style="list-style-type: none"><li>• Fits any house or budget</li><li>• Installs seamlessly into the home</li><li>• Provides a custom look and feel</li><li>• Allows features to be added or system expanded as you need</li><li>• Adapts to new home construction, remodels and/or retrofits</li></ul>

## Next Steps

Now let's start mapping out your multi-room audio video system and explore your next steps. **See the next page to get started...**

## Step 1:

Consider some basic questions you'll want to discuss with your TechHome integrator, builder or contractor:

**In which rooms or areas of your home do you listen to music, watch TV or entertain?**

- Kitchen
- Living/family room
- Dining room
- Laundry room
- Basement/rec room
- Master bedroom
- Master bath
- Kids/guests rooms
- Garage
- Deck
- Patio
- Pool
- Others: \_\_\_\_\_

**Which source components do you want included in the multi-room audio video system?**

- MP3 player
- CD player/changer
- Digital music server or PC
- Satellite radio
- Digital Video Recorder (DVR)
- DVD player
- AM/FM radio
- Others: \_\_\_\_\_

**Which other comfort, convenience and/or security features would you like integrated?**

- Security system
- Child monitoring
- Intercom
- Temperature (HVAC) control
- Indoor/outdoor lighting control
- Others: \_\_\_\_\_

## Step 2:

Talk to friends or neighbors with multi-room audio video solutions to see which features they like the most and which features they wish they had. Which rooms and components did they include?

## Step 3:

If you are currently working with a builder or remodeling contractor, find out what integrated technology options they offer. Specifically ask them if they have a technology partner or provider.

## Step 4:

Contact a professional TechHome integrator near you, visit [www.TechHome.com](http://www.TechHome.com) for details.
